

## Eve Psalti

### Senior Expert

Senior Director | Microsoft Azure AI Foundry

#### *Expertise and areas of interest*

Generative AI | Responsible AI  
AI-Enabled Transformation

Eve Psalti is a senior technology and business leader with more than 20 years of experience at the forefront of digital innovation. She currently serves as Senior Engineering Director at Microsoft Azure AI, where she leads the scaling and commercialization of artificial intelligence solutions, with a particular focus on enterprise adoption of generative AI and large language models.

Over the course of her career at Microsoft, Eve has held multiple global leadership roles spanning Azure AI, cognitive services, and Microsoft Education, where she drove strategy and outreach for educators and technology decision-makers worldwide. Earlier, she served as Head of Strategic Platforms at Google Cloud, advising Fortune 500 organizations on digital transformation and platform strategy.

Eve is a board member of WE Global Studios and has served as AI Advisor to the German American Business Association (GABA) Southern California. She is a strong advocate of responsible AI and “human-in-the-loop” systems that ensure technology augments rather than replaces human creativity and judgment.

With her rare combination of deep technical expertise, enterprise-scale implementation experience, and principled perspective on responsible AI, Eve strengthens CFFO’s capacity to bridge frontier AI engineering with organizational leadership. She also strengthens the Center’s network to large-scale technology corporations as well as the AI-centered start-up universe.

Eve splits her time between Los Angeles and Seattle, USA
